

Team Tempest Storms Lake Morey

For a fun team building event!

January 15, 2010

Excitement in the air as Middle School team Tempest students arrived at school with their sleds, skates, skis, and arms full of assorted winter gear. They were headed to Lake Morey for the day for their team building field trip.

Likewise, that afternoon it was rewarding to see the beautiful smiles and happy faces as those same students returned to school after a wonderful day outside with their teammates and teachers.

Students had good things to say including:

- "The hot chocolate was awesome"
- "Skating and playing hockey on the ice was great"
- "I had a blast sledding!"
- "It was a great day!"
- "That was the best pizza I've ever had!"

Other faculty, staff and parents were invited to join the Tempest team on this trip and rumor has it they may have had just as much fun as the students! This was an excellent team and community building activity that students and everyone else will fondly remember. Thank you to the Tempest team teachers for organizing and planning such a wonderful team field trip: Bev Barton, Jennifer Boeri-Boyce, Rebecca Fors, Jason Jarvis, Marion Cloud, and Nicole Bonnett.
